## Leah Dorion Art Work for NWAC's Project PEACE

Leah Marie Dorion is an interdisciplinary Metis artist raised in Prince Albert, Saskatchewan.

A teacher, painter, filmmaker and published writer, Leah views her Metis heritage as providing her with a unique bridge for knowledge between all people. Leah's paintings honour the spiritual strength of Aboriginal women and the sacred feminine.

Leah believes that women play a key role in passing on vital knowledge for all of humanity which is deeply reflected in her artistic practice. She believes women are the first teachers to the next generation.

## What is the PEACE Model

PEACE is an acronym for:

**P**resence of Self and Setting Goals,  
**E**ncouraging Strength and Resilience,  
**A**ccessing Services and Supports,  
**C**ommunity as a Safety Net, and  
**E**ngaging in Culture.

## How You Can Use This Toolkit

These workbooks can be used one-on-one, between service providers and participants, or in larger community groups to meet different needs.

It is helpful to have an Elder or Knowledge holder present for this work.

This toolkit was developed using a strengths-based and trauma informed lens. The purpose of this was to be aware and considerate of the impact of trauma on Indigenous people. The workbooks emphasize physical, mental, emotional and spiritual safety for those who have experienced violence.

The goal of this resource is to create opportunities to rebuild a sense of self and empowerment.

# PRESENCE OF SELF AND GOAL SETTING

## Introduction

Setting goals is an important step in healing from experiences of violence. This can be difficult as trauma can affect our sense of self and confidence. Goals help us plan for the future and use our gifts and strengths to achieve what is important.

## Mindfulness Activity

Mindfulness is achieving a state of calm through focusing on the present moment while acknowledging thoughts, feelings and bodily sensations. The practice of mindfulness is used for a variety of purposes and it will be used here to help bring focus, a clear mind, and grounding as we begin to set goals.

### Mindfulness Activity – Sample Activity

Mindfulness is achieving a state of calm through focusing on the present moment while acknowledging thoughts, feelings and bodily sensations. The practice of mindfulness is used for a variety of purposes and it will be used here to help bring focus, a clear mind, and grounding as we begin to set goals.

**Helper Bees Check-in:** Mindfulness can be used to help centre and ground yourself. Sometimes slowing down and focusing on one self can bring up strong emotions. It can be helpful to have an Elder, support person or counsellor available if you need some additional support.

# PRESENCE OF SELF AND GOAL SETTING

## GOAL SETTING WORKSHEET

### Goal Setting

Young women and girls have our own set of barriers and demands that need to be considered.

In goal setting think of what you need to achieve this goal while feeling safe and supported.

By learning how to set SMART goals (Specific, Measurable, Attainable, Relevant and Timely) we can be successful and effective.

<b>Specific Goal</b>	To achieve a goal you need to ensure it is specific so you can effectively focus your energy and attention. Define your goal as much as possible. Consider: Who is involved, what do I want to accomplish, why am I doing this (purpose) and what are the constraints or requirements.	
<b>Measurable</b>	Tracking the progress and outcomes of your goal will help you see how far you have come and what still needs to be completed.	
<b>Achievable Actions</b>	For a goal to be achievable you need a road map. Here is where you consider the actions or steps to completing your goal.	
<b>Relevant</b>	Setting relevant goals helps ensure successes and long term benefits. Consider how this goal fit into your wholistic wellness and long term objectives.	
<b>Timely</b>	Setting timely goals means considering the time needed to complete as well as when you will work on this goal. Having a timeline for each step of the goal will help keep you on track to success.

# ENCOURAGING STRENGTH AND RESILIENCE

## Resiliency Plans - **Sample Activity**

The purpose of this section is to help us identify our strengths, resiliency and understand our community of support.

Resiliency is a term we use to discuss one's ability to overcome challenges and difficulties. Indigenous people, especially Indigenous women and girls, have a long history of resilience in the face colonialism, racism and multiple forms of violence.

# **E**NCOURAGING STRENGTH AND RESILIENCE

## **Resiliency Plans Include:**

- Developing a Daily Wellness Strategy
- Understanding and Overcoming Obstacles
- Contact list of Supports and Supporters
- Early Signs of Crisis and Crisis Support lines
- Self Care strategies
- Re-Focusing on Goals After Crisis

# A ACCESSING SERVICES AND SUPPORTS

## Helper Bees Check-in

For some it can be difficult to focus on our own wellness and bundle as we may feel responsible for so many people. We can remind ourselves that balance and caring for yourself helps with resilience in the face of barriers. You can consider having sacred medicines available for use.

## Building My Support Bundle

There are many supports available to help achieve your goals, including employment, education, housing, counselling and community. In the Accessing Services and Supports section you learn to build a support bundle, access community supports and self-advocate.

# COMMUNITY AS A SAFETY NET

## Identifying Supports and Supporters in Your Community

Community can be a source of strength and support in achieving goals. Community can be family, friends, and any individuals that support you. In Community as a Safety Net you can explore how to connect with community and build safety nets as well as how using a Resiliency Plan and Community Resource Guide can help support your Safety Net.
